To Whom It May Concern,

During the period of January 14, 1995 through February 06, 1995 the jack - up drilling unit, "D. K. McIntosh" undertook a repair to the internal pipework of her supporting mat. The work involved several diving jobs. These included, but were not entirely limited to the following;

- * Surveying of the location which the rig was intended to occupy.
- * Surveying of an alternate location due to problems positioning on the original site.
- * Checking the skirt of the mat upon positioning on the site.
- * Checking the skirt periodically for scouring due to sea action.
- * Positioning sandbags around the skirt after scouring was detected in order to prevent its continuation.
- * Cleaning areas around a hatch cover on the mat and welding of padeyes to secure our coffer dam. (entry column)
- * Positioning and securing the coffer dam with heavy chains and turnbuckles.
- * Removing the tie-down equipment after the job was finished.

This work has done by Mr. Rajkumar Ramgonda Desai, Diver, Sri. Bhavani under water services, Vishakapatnam, In spite of adverse weather conditions, in a very professional manner. I can truly recommend him to anyone requiring similar diving support.

Respectfully,

Ken Pixley
Area Manager
Reading & Bates
" D. K. McIntosh"

JULY, 1999

TO WHOM IT MAY CONCERN

SALVAGE AND OIL TRANSFER OPERATION OF BULK CARRIER M.V. PACIFIC ACADIAN

Introduction

On 8th July 1999 at about 08:10hrs local time, m.v. PACIFIC ACADIAN, dwt 49,836mt, laden with about 33,000mt of coal, whilst coming to berth at Ambuja Cement Jetty, Port of Muldwarka, Gujarat State, went aground on shallow rocky patch area opposite the jetty due to strong wind and rough sea condition. Vessel eventually sustained extensive damage to her bottom hull.

On 10th July 1999, Smit International Singapore and Nippon Salvage was awarded the Lloyd Open Form contract to removed the vessel. Prior to the refloating operation, various preparation works were carried out. These involved:

- A) Jettisoning of about 8,000 mt of cargo.
- B) Preparations of air connections to air vent pipes of damaged double bottom tanks for pressurization.
- C) Blanking and sealing air vent pipes of damaged fuel oil tanks.

On 15th July 1999, the m.v. PACIFIC ACADIAN assisted by salvage tug BANCKERT, tug ODIN and tug ROMA was successfully refloated and taken out of the port to safe outer anchorage.

On 18th July 1999, the vessel was safely redelivered to Owners at the same jetty. From 20th to 24th July 1999, most of the fuel oil in the damaged oil tanks was successfully transferred to cargo hold no.3 as per requirement of the Coast Guard Authority.

Testimonial

This is to certify that **Mr. R.R. Desai**, salvage diver, did fully involved himself with the salvage and oil transfer operation.

In our opinion, the above mentioned gentleman is diligent and resourceful and capable in discharging his responsibilities as expected.

Commercial Diver Certification Card

The Association of Diving Contractors International (ADCI) issues this Certification Card to the bearer relying only upon statements or information received that the named individual has completed all training, field experience, and necessary on-the-job performance to warrant identification as a Commercial Diver at the level of experience stated hereon. ADCI accepts no responsibility or liability for the failure of the bearer to perform his or her duties at any stated level of ability.

Additional specialized training and/or qualifications gained while engaged in the practice of commercial diving are as recorded in his or her company maintained personnel records and appropriate personal Diver's Log Books.

At a minimum, all commercial diving operations must be undertaken with a minimum of a three man diving team in accordance with the ADCI International Consensus Standards for Commercial Diving Operations, (current addition).

The USCG formally recognizes this certification to fully meet the requirements of 46 CFR part 197, subpart B.

Questions should be directed to ADCI at (281) 893-8388, Fax (281) 893-5118 or www.adc-int.org
